Digital Inclusion is the ability of communities to provide opportunity for all in a digital age, and is comprised of 3 overlapping aspects:

- **Access** to infrastructure
- **Adoption** of digital technologies
- **Application** of those technologies for community benefit

Public libraries build digitally inclusive communities through access to broadband, technology, training, and services.

Data collected in 2013. For more information and citations: digitalinclusion.umd.edu/references

*Percentages are derived from percentage of libraries that indicated that they offered programs in respective domain areas.*
