**DIGITAL INCLUSION** is the ability of communities to provide opportunity for all in a digital age, and is comprised of 3 overlapping aspects: **ACCESS** to infrastructure, **ADOPTION** of digital technologies, **APPLICATION** of those technologies for community benefit.

Public libraries build digitally inclusive communities through access to broadband, technology, training, and services.

Data collected in 2013. For more information and citations: digitalinclusion.umd.edu/references

*Percentages are derived from percentage of libraries that indicated that they offered programs in respective domain areas.*

---
