Pennsylvania has 629 libraries, which were visited 46,879,095 times, with 8,418,806 public Internet computer uses.

Each dot represents a public library in the state.
Digital inclusion is the ability of communities to provide opportunity for all in a digital age, and is comprised of 3 overlapping aspects:

**Access** to infrastructure

**Adoption** of digital technologies

**Application** of those technologies for community benefit

Public libraries build digitally inclusive communities through access to broadband, technology, training, and services.

Data collected in 2013. For more information and citations: digitalinclusion.umd.edu/references

* Percentages are derived from percentage of libraries that indicated that they offered programs in respective domain areas.
