Digital Inclusion is the ability of communities to provide opportunity for all in a digital age, and is comprised of 3 overlapping aspects: Access to infrastructure, Adoption of digital technologies, and Application of those technologies for community benefit.

Public libraries build digitally inclusive communities through access to broadband, technology, training, and services.

Data collected in 2013. For more information and citations: digitalinclusion.umd.edu/references

* Percentages are derived from percentage of libraries that indicated that they offered programs in respective domain areas.
